Work Experience _____

Frontend Developer – *Blue Marvel Capital, Remote*   **March 2025 – Present**

- Developed the frontend of a social media management SaaS using React.js and Tailwind CSS, supporting scheduling and analytics for Twitter, LinkedIn, Reddit, and Threads.
- Built a visual drag-and-drop calendar for post scheduling and integrated real-time analytics dashboards using chart libraries.
- Collaborated with backend engineers to implement OAuth-based account connections and display live post queues.

Full Stack Web Developer – *Upwork, Remote*   **November 2024 – Present**

- Built ScoutSesh, an athlete development platform using Next.js, TypeScript, Tailwind CSS, and MongoDB.
- Delivered full-cycle development from planning to deployment, ensuring responsive design and performance.
- Designed modular architectures and implemented user-specific features like progress tracking and session booking.

Full Stack Web Developer Intern – *ABR Technologies, Delta State*   **January 2024 – March 2024**

- Developed an admin panel for Shopparel using the MERN stack to manage products and orders efficiently.
- Implemented Role-Based Access Control (RBAC) to ensure structured and secure access control.
- Collaborated with senior developers to optimize dashboard performance and improve UX.
