Great Ogheneochuko

Software Engineer | Cloud Security Engineer

Benin City, Nigeria | +2347048078103 | greatochuko123@gmail.com | https://greatochuko.com | LinkedIn

PROFILE

Software Engineer with 3+ years of experience building and deploying full-stack applications, with a strong focus on backend development, cloud infrastructure, and application security. Experienced with TypeScript, Node.js, React, PostgreSQL, Docker, CI/CD, and cloud deployments. Currently expanding expertise in Go, cybersecurity, and cloud security, with hands-on experience securing Linux servers, automating deployments, and designing reliable production infrastructure.

WORK EXPERIENCE

Software Engineer

Aug 2025 – Present

Clinic Lead Stack, Taipei Taiwan (Remote)

- Built and maintain Clinic Lead Stack end-to-end as the sole software engineer, developing full-stack features using React, TypeScript, Node.js, Express, and Prisma, with PostgreSQL and Redis for data storage and caching.
- Designed and managed production infrastructure on DigitalOcean, including Linux server hardening, Nginx, PM2, HTTPS, Cloudflare DNS, database migration, and automated CI/CD deployments using GitHub Actions.
- Implemented backend services, scheduled jobs, and email delivery workflows while improving production reliability through automated build verification, deployment health checks, secure SSH access, firewall configuration, and process management.

Frontend Developer

Mar 2025 - July 2025

Blue Marvel Capital, UK (Remote)

- Engineered a headless CMS platform for Comobi.co.uk using TypeScript and Sanity.io, establishing a structured content pipeline and modular design system for streamlined operational updates.
- Developed the web presence for the Emmanuel Igbinovia Foundation, building an optimized, responsive user interface to drive global engagement for youth empowerment initiatives.

Full Stack Developer

Oct 2024 – Present

Virtuous Tech Solutions LTD, Nigeria (Remote)

- Engineered a headless CMS platform for Comobi.co.uk using TypeScript and Sanity.io, establishing a structured content pipeline and modular design system for streamlined operational updates.
- Developed the web presence for the Emmanuel Igbinovia Foundation, building an optimized, responsive user interface to drive global engagement for youth empowerment initiatives.

EDUCATION

BSc Cybersecurity

2026 - 2029

MIVA OPEN UNIVERSITY

Relevant coursework: Network security, cybersecurity fundamentals, information security, ethical hacking, risk management, computer networks, operating systems, and secure software development.

SKILLS

Typescript | Node.js | React | Go | Python | PostgreSQL | Rest API Development | AWS | GCP | Cloud Infrastructure | CI/CD & DevOps | Application Security | Linux & Server Administration | Azure
